Operating Instructions

Cable Remote Control

For 4 in 1 UR4-DCT

1. Introduction

The remote control is designed to operate the Motorola® DCT series and CFT2200. You can also control the majority of TV, VCR/DVD and AUDIO equipment on the market as shown below.

CABLE: Cable Converts TV: Televisions VCR: VCR and DVD AUX: Audio Receivers, DMR & DCR, TVD, etc.

2. Replacing Batteries

Before you program or operate the remote control, you must install two new AAA batteries.

STEP1: Remove the battery compartment cover on the back of your remote control.

STEP2: Insert the new batteries carefully, and install the batteries as shown in the illustration below.

STEP3: Replace the battery compartment cover.

3. Button Functions

A. Three-Digit Code Programming Method

This code control can be programmed by pressing in a three-digit code number that corresponds to particular manufacturers and brands of Audio/Video equipment.

The three-digit code numbers are listed in the code table of the instruction manual.

STEP1: Turn the equipment you wish to program, (TV, VCR, or AUX) on.

STEP2: Press the [DEVICE] button (TV, VCR or AUX) to be programmed and the [OK] button simultaneously for 3 seconds. The device LED will turn on indicating the unit is ready to be programmed.

STEP3: The device LED will light on for 20 seconds. The next step must be entered while the LED is on.

STEP4: You can verify that you selected the correct code by pressing the [POWER] button again. The equipment should either turn on or off.

If the three-digit code number assigned to your TV or VCR (or AUX) to be programmed is correct, the three-digit code number assigned to your TV or VCR (or AUX) will be entered while the LED is on.

STEP5: The device LED will blink number of times indicating the number of each digit of the code number. Each digit is separated by a 1 second interval of the LED being turned off.

Example: One blink is equal to the number 0.

STEP6: The device LED will blink twice indicating the number 1.

B. Auto Search Method

If the three-digit code numbers assigned to your brand do not turn off your equipment or the code tables do not list your brand, you can use the Auto Search Method to find the correct three-digit code number for your equipment by the following steps.

STEP1: Turn the equipment you wish to program, (TV, VCR, or AUX) on.

STEP2: Press the [DEVICE] button (TV, VCR or AUX) to be programmed and the [OK] button simultaneously for 3 seconds. The device LED will turn on.

STEP3: Press the [TV] button to pick up the TV code table. The device LED will light on for 20 seconds.

STEP4: You can verify that you selected the correct device by pressing the [POWER] button again. The equipment should either turn on or off.

*Tip: The device LED will light on for 20 seconds. The next step must be entered while the LED is on.

STEP5: Press the [TV] button again. The equipment should either turn on or off.

*Tip: The device LED will light on for 20 seconds. The next step must be entered while the LED is on.

STEP6: Press the [TV] button once again. The device LED will blink twice to confirm that the code has been stored.

C. To Find the Three Digit Code Number That Was Stored in the Device.

By following the steps below, you can confirm the saving. This is designed to program the System On/Off button, the channel control settings on the TV mode, and the volume controls (Volume Up, Volume Down and Mute) on one device to operate in another device mode.

If you wish to store the TV volume control in CBL mode, use the following steps.

1. Press the [CBL] button and the [OK] button simultaneously for 3 seconds.

2. Press the [CBL] button. The device LED will blink twice to confirm the programming.

To return to original state:

If you wish to restore the CABLE channel control in TV mode, repeat the above steps by pressing [CBL] button.

4. Operations

Default State:

Device Default: Motorola® DCT series and CFT2200.

Channel Default: CABLE channel and number keys through the CABLE, with the option of controlling volume and mute keys through the TV or VCR.

Refer to section 4 for programming the volume and mute through your TV or AUDIO.

Volume Default: CABLE volume and mute through the CABLE, with the option of controlling volume and mute through the TV or VCR.

Refer to section 4 for the programming the volume and mute through your TV or AUDIO.

Universal Remote Control, Inc.

www.universalremote.com

CBE: CABLE TV: CBL VCR: VCR AUX: AUX

If you wish to store the TV channel control in CBL mode, use the following steps.

1. Press the [CBL] button and the [OK] button simultaneously for 3 seconds.
